The present City of Paterson is made up of territory formerly in Acquackanonk and Manchester townships. That portion lying south of the Passaic river was originally in Acquackanonk, which then embraced also the present City of Passaic and the Township of Little Falls. From the time that Paterson was founded, as a manufacturing town, there was friction between the old settlers and the new comers, which culminated in the incorporation of the township of Paterson.

The Records herewith given illustrate the evolution of the simple township government into the more complex city organization, and, of course, are invaluable for the light they throw on the local history in general. To make them better understood, they have been supplemented by the laws passed from time to time relating to the township, and by extracts from contemporary local newspapers, to which have been also added, notes giving additional information regarding the matters touched upon in the text.

PATERSON, N. J., February 10, 1895.

J M Crismond Town Clerk.

At a Town meeting of the Inhabitants of the Township of Paterson held in front of the house of Platt Rogers on Friday 31st Augt. 1832 John Colt Esq was Chosen Moderator. The Town Committee submitted the following

—Report.—

The Town Committee in advance of the fatal epidemic which has for some time past prevail'd in the Town, and which still continues its ravages to an alarming extent called a meeting of the Township for the purpose of raising funds for cleansing the streets &c from impurities as would tend to augment its violence & spread its destructive power. The sum authorized to be raised was Three Hundred dollars which has been expended, together with an additional sum for purposes connected with the Calamity which has befallen us and which are detailed in the subjoined Statement,;—

The Town Committee aware of the serious responsibility resting on them in the present emergency, formed themselves into a Board of Health, and invited several of our respectable citizens to cooperate with them in their duties, and are happy to announce not only their acceptance of the unpleasant office, but a most faithful discharge of the duties incident thereto without a fee or reward—It immediately became apparent to them that the funds rais'd by the Town were altogether inadequate to meet the expenses which are Consequent upon the disease. A Hospital for the sick has been built, good nurses provided, persons employ'd to bury the dead &c &c The destitute & distress'd are becoming so numerous that the Poor House is insufficient to contain them, so that supplies have to be furnish'd them at their own dwellings. An increas'd sum, to be rais'd by the Town, has therefore, become absolutely necessary. The amount which will be requisite they are unable to state, as the duration of the devastating influence of the Cholera is uncertain; but would respectfully recommend to their Fellow Citizens to give power to the Town Committee to raise such an amount as they with the Concurrence of the Board of Health may deem proper. The Board would further most earnestly rec-

commend, that a liberal per diem allowance be made to Nicholas Smith Esq for his services, which are by the Board deem'd invaluable, and which they think must be obvious to all—He has relinquish'd the business of his Office, as his services are in constant requisition for the purpose of attending to duties which are paramount to all others—visiting the sick, relieving the distress'd & burying the dead.

Building the hospital. attendance of Nurses & other necessary expenditures		\$763.17

“ of N. R. Terheune for attendance at Hospital & burial of Slave	10 —	
“ from Cors. Van Winkle for do	20 —	320 —

On motion it was resolved, unanimously, that the report be accepted——

Resolved, That the Town Tommittee be authorized, to raise such an amount of money as the exigencies of the town may require.

Resolved, That Four Dollars a day be allow'd to Nicholas Smith Esq for his services while in the employ of the Board of Health.

Resolved, That the present Board of Health be continued.

Resolved, That in consequence of the absence of James King Esq. and Henry Decker, overseers of the Poor, John Kear & John Brown be Overseers of the Poor in their place——

Resolved, Unanimously, that the thanks of this meeting be tendered to the Board of Health for their services.

J M Crismond Town Clerk

At a Meeting of the Town Committee held at Platt Rogers on Monday 11th March 1833 N. Smith Esq was appointed Chairman.

Resolved That Brant Van Blarcom be & he is hereby Authorized to take and appropriate to his own use the manure that may from time to time accumulate in the several road districts of the Township, so far as the Town Committee have control over the same, for the term of five years, Said Brant Van Blarcom giving the Town Committee a written pledge that he will remove said manure at proper periods from said districts at his own expense

Resolved, That the above resolution be recorded on the Township Book, and a Copy thereof furnish'd Mr. Brant Van Blarcom.

Note The pledge was given by Mr. B V Blarcom and put on file with the Township Papers.

Resolved That a Committee of two persons be appointed to advertise for Proposals to take Charge of Poor house, Farm & Paupers, for the ensuing Year, and also for purchasing the necessary Fencing Stuff for the Poor House Farm

Resolved, That Cornelius G. Garrison & Bonnel M. Haggerty be that Committee & that they report to a Meeting to be held at Platt Rogers On Monday 25th March at 7 O'Clock P. M.

¹ The following communication, published in the *Paterson Courier* of Tuesday, June 26, 1833, and in the *Paterson Intelligencer* of the next day, explains the occasion of this resolution:

"To the People of the Township of Paterson.

I have been very much surprised, and you will no doubt be as much so, when I inform you that some of your Town Committee have signified a disposition to enjoin secrecy upon me in public business, the business of the Township, which is the business of us all. Such however, is the fact. I have been told in plain terms, that I had not ought to have publicly insisted upon an exhibition of the disposition of the moneys of the Township being made, after B. M. Haggerty had refused me to take a copy from his vouchers, for the disposal, as Treasurer of the Town Committee, of a large sum of money, between two and three

The above Meeting was held in compliance with the notice entered on page 17, this Book there was Eight days notice given and four Notices put up in four of the most public places in the Township

thousand dollars. Mr. Haggerty has gone so far as to declare positively that he would not give up the vouchers, neither would he suffer a statement to be made out from them. Now if this secrecy business has been the order of the day, probably it is the best reason that could be assigned why a statement of the disposal of the monies is not forthcoming.

I am under oath as an officer and as a citizen, I should and do insist upon a statement being made from the vouchers, of the disposal of the monies, and I contend that according to law the Town Committee are under obligation to make such a statement. I was willing to take all the trouble upon myself of making it out, because I know it would not only be of advantage and satisfaction to me as a citizen, but would enable me in my official capacity to get the items of the affairs of the Township together so as to make an entry of them upon the Books, which has never been done yet or at least, since the division of the Township. I also know it was looked for and expected by the people.

Mr. Haggerty cannot find any authority in the law to withhold the vouchers, neither can the Town Committee to appoint a Treasurer or to handle any of the monies of the Township. It appears to me that the Collector would be the proper person to hold the monies of the Township, until such time as drawn out of his hands by order of the Town Committee to be applied to the objects for which it was raised. In the collector's hands it would be considered perfectly safe as he enters into good securities as the law directs for that purpose.

I have exercised all the influence I had by persuasion and recommendation for more than one object—as before stated, to procure a statement and I do really hope for the credit of the Town Committee and for the interest of the township it will be made.

I might say much more on the subject, but suffice it at present to say that as long as I hold the office of Town Clerk, I shall not be influenced one way or the other from what I conceive to be my line of duty.

I can say for Mr. Strong and Mr. Garrison that they are not censurable for wanting to keep any thing from the public so far as I know. On the contrary Mr. Strong has been using his utmost endeavors to have a statement exhibited.

P. S. It has since been said that Mr. Haggerty would suffer C. A. Van Houten to take a copy of his proceedings. I should like to see them by some means

Jacob Goetchies was appointed secretary pro tem

It was stated to the Committee that a difficulty had arisen in relation to a certain draft made by the Township Committee in favor of William Sandford an overseer of the roads of this Township which draft having been presented to James Gordon Township Collector and the payment refused by the Collector on the ground that the State and County Taxes must first be paid out of all funds in his hands collected—

And whereas the Committee were not satisfied that this rule would be altogether right and as Mr Barkalow the Township Counsel could not be found at the time, they called for special advice from Elias B D Ogden on this question. Whose advice was that all monies collected by tax for the State and County should be paid to the County Collector and all monies collected by tax for the uses of the Township should be paid to the proper and lawful Township Authorities. Whereupon

It was Resolved, by the Township Committee they hereby instruct the Township Collector of this Township to pay over to the County Collector of the County at such times as the law may direct all monies collected by him on the Taxes for

the State and County and to pay all monies collected by taxes for the use of the Township to such persons as are properly authorized to receive it

Proceedings of Annual Town Meeting held At the Court House Aprill 10. 1848

Joseph Smith Jun was appointed moderator and Peter J. Hopper Clerk

Resolved that there be Two assessors and Two Collectors,
Resolved that there be three Constables and one overseer of the poor
Resolved that there be seven of a school committee—

Whereas some years ago a resolution was passed at a Township meeting, requiring the names of all delinquent tax payers to be published, with the respective sums, two weeks previous to the Annual Town meeting, which has not been complied with for some years—therefore

Resolved That the Town Clerk be instructed, to furnish a

list of said names and sums for the two papers of this town, and of all delinquent Tax payers of last year, in two weeks from this date, or as soon thereafter as possible.

Resolved that the Paterson Township Committee shall appoint no superintendant over the grading, paving and regulating of streets in said Township, only from their own body

Resolved that the said Township committee shall not continue their work in the streets of said Township later than the 10th day of November, nor commence earlier than the 10th day of Aprill in each successive year

Resolved that the grading of the public streets should be permanent and final, and that the whimsical changing of grades is an unjust tax upon property holders, and that when grades are once established and recorded, that they shall not be changed except by the assent of the Town Committee, and at least three fourths of the property holders in the street.

Resolved, That the town ordinance, regulating the sale of meat, fish, and other things, and confining such sale to the actual produce of the surrounding farmers, is unjust, inexpedient, and anti-democratic

Resolved that hereafter no orders upon stores, payable in merchandize, be drawn by any of the officers of this Town.

¹ By deed dated May 5, 1849, acknowledged June 1, 1849 before Frederick B. Ogden, Master in Chancery, and recorded June 1, 1849, in Book O of Deeds for Passaic County, page 7, Aaron S. Pennington, executor of Rachel B. Wallace, late of Burlington, in the County of Burlington, New Jersey, with the consent of Elias J. Marsh, Trustee for Susan Laura Collet, under the Will of Rachel B. Wallace, conveyed to Joseph Smith, of the Township of Manchester, consideration \$4,450, a tract of land in Paterson, described as follows:

"Beginning on the easterly side of the Paterson & Hamburg Turnpike road or Main Street at the south east corner of its intersection with Broadway, or the Old York Road, in the Town of Paterson, thence running southerly along the line of Main Street about twenty feet eight inches to the north-west corner of a lot heretofore sold to Smith Hill; thence easterly, at right angles to Main Street, fifty feet to a lot of John Brown; thence northerly along the line of his lot about twenty feet eight inches to Broadway; and thence westerly along Broadway fifty feet to the place of beginning."

About the first of July following, Smith began the erection of a brick building on this lot, extending the building northerly about three feet over the line of Broadway as previously built upon. At the following term of the Passaic Oyer and Terminer, the Grand Jury brought into Court, on September 7, 1849, an indictment against Smith for a nuisance in building upon and obstructing the public highway. The case was tried June 14, 15, 17 and 18, 1850, before Chief Justice Green, Smith being defended by Hopper and Frelinghuysen. Twelve witnesses were examined for the State, and eleven for the defence, the point at issue being what was the true line of Broadway. Smith was convicted. His counsel took a writ of error to the Supreme Court, where the judgment was affirmed at the July Term, 1851 (3 Zabriskie, 131). The judgment of the Supreme Court was taken up on writ of error to the Court of Errors and Appeals, where it was affirmed at the June Term, 1852 (3 Zabriskie, 712). The judgment of the Oyer and Terminer was that the nuisance should be abated, which was done by compelling Smith to cut off about three feet from the north side of his building, where he substituted frame for brick. Smith was one of the leading butchers of the town at that time, but owing to this law suit and other troubles, he subsequently lost all his property, and died in the poor house. The case excited a great deal of attent on, and is frequently cited to this day, as it established a number of important legal principles relating to highways.

The statement of the expenses of roads and streets was presented by the superintendant of streets examined and found correct.

Resolved that Cornelius I. Westervelt and Horatio Moses be appointed a committee to confer with the superintendant of streets in respect to roads outside the Town.

"25. *And be it enacted*, That the preceding sections of this act shall not go into effect, unless the assent of a majority of the electors of the township of Paterson, who shall vote thereon, shall be first obtained; and for that purpose a poll shall be opened in Paterson, on the twenty-seventh day of March, eighteen hundred and fifty-one, at the hour of seven o'clock in the forenoon, and kept open until the hour of seven o'clock in the afternoon, of that day, under the direction of the judges of the last election in the said township, and at the place in said township where the last election was held, of which time and place the township clerk of Paterson shall give at least one week's previous notice in both the newspapers printed and published in Paterson; and the electors entitled to vote for town officers at the time of said election, who may vote, shall express their assent to or refusal of this act, by depositing their ballots in a box provided for the purpose in said township; and the electors who are in favor of this act, shall each deposit a ballot containing the word "Charter," written or printed thereon, and the electors who are opposed, shall each deposit a ballot with the words "No Charter," written or printed thereon; and a canvass and return of the votes shall be made by the said judges to the township committee of Paterson, within three days after such election, and published in the newspapers above mentioned; and if a majority of the electors who shall vote at such election are found to be in favor of this act, it shall then, but not otherwise, go into effect; but if a majority of the voters at such election shall not be found in favor of this act, then it shall be lawful for the township committee of the township of Paterson to submit this act to the voters of said township, at a special town meeting, to be called for that purpose, for their assent or refusal, whenever they may deem proper; provided, that not more than one town meeting for such purpose shall be called in any one year; and whenever, at any such township meeting, a majority of the persons voting thereat, shall be found in favor of this act, the same shall go into operation, and take effect on the second Monday in April next ensuing such election; and that this section shall take effect immediately."

The constitutionality of this provision was affirmed by the New Jersey Supreme Court, in the case of the City of Paterson vs. The Society for Establishing Useful Manufactures, February Term, 1854, the Court holding: "A provision that a municipal charter shall not take effect until approved of by a majority of the inhabitants of the district incorporated, is not the delegation of legislative power; it is the mere question of the acceptance of a charter."

Majority in favor of "Charter" four hundred and forty two.

THE CHOLERA EPIDEMIC OF 1849.

It does not appear that the Committee appointed for the purpose drew up "a report and address to the inhabitants of the township on the subject" of the cholera. The following extracts from contemporary newspapers give the fullest available details of the progress and ravages of the plague:

Paterson Intelligencer, June 6, 1849:

Cholera.

We learn from the physicians of the Town, that a few cases of malignant cholera have occurred—but nothing to justify fear or create alarm. Only two fatal cases have occurred; one, Mr. Adams, was a person of temperate and good habits, but of feeble constitution and precarious health, and whose death would not be unexpected, at any time. The other was a person of extremely intemperate habits, who would probably have fallen a victim to any disease with which he was attacked. The other cases have readily been managed and relieved by proper medical treatment.

By this time, every man, woman and child, who can read, hear, or understand, must know that the first stage of the disease is characterized by a looseness of the bowels, generally unattended by pain. In this stage the disease is most readily curable; but if allowed to run on unchecked, it soon becomes unmanageable, and death follows. In all the sudden cases we heard of, on inquiry we find that the first stage of the disease,

characterized by looseness of the bowels, had been present for some days, but been neglected, as there was no pain. Let every one know that life or death may depend upon stopping this looseness as soon as it appears.

At any of the regular drug stores may be found the proper remedies, the basis of all of which is some form of opium. Let no family be without some laudanum or morphine ready at hand in case of need. We again repeat that there is at present no cause for alarm—that the disease appears to be mild, and if not neglected in its early stages, is as easily relieved as most other epidemics. That the disease is in our community, and that the mysterious choleraic poison is diffusing itself in this locality, cannot be denied—the cases may probably increase, but this disease is more amenable to treatment than formerly—its nature and stages are better understood by the medical profession—and all authority proves that in its early stages it is curable—but let the first symptoms be checked. Life or death depends on this.

Paterson Intelligencer, June 13, 1849:

Cholera.—We learn that two or three deaths have occurred in this town—during the past week, from cholera. There have been a number of cases of cholera, during this time, but the disease, we learn, readily yielded to medicine, where aid was promptly called in.

Paterson Intelligencer, June 20, 1849:

The Cholera appears to have disappeared from among us—at least we have heard of no new cases during the past week. A few cases of diarrhoea occurred occasionally, which, however, yielded to medicine.

Paterson Intelligencer, July 11, 1849:

Our town remains remarkably healthy, very little sickness of any kind prevailing at the present time. We have not heard of a single case of cholera in this town or neighborhood, during the last five or six weeks.

Paterson Intelligencer, July 18, 1849:

The Cholera.—For several weeks past our town has been wholly free from the “prevailing epidemic,” and the health of the people has been as good as in ordinary seasons. But last week it suddenly made its appearance among us again, and on Friday there were in the town and vicinity, five cases, of which three proved fatal. Some six or seven cases have since occurred, two or three of which have also proved fatal.

Of course, in regard to the causes of this mysterious complaint, its appearance, its temporary absence, and its sudden re-appearance among us, we can form or offer no explanation. The heat of the last three days of the last week was oppressive in the extreme, the thermometer ranging at noon 96 degrees in the shade, and this may have been the exciting cause in constitutions which were weak, or predisposed to the operation of atmospheric virus. Yet we have no doubt that people, through the absence of any cases of late, have laid aside the circumspection and careful habits which they practiced when the cholera first appeared among us, and feeling secure, have indulged too much the appetite for fruit and green vegetables.

The favorable state of the health of the town, and the absence of the dreaded malignant cholera for some weeks past, have induced in our citizens some neglect of diet and regimen. The few fatal cases that have occurred the past week in this town and neighborhood will, we trust, teach our citizens that the danger is not yet past; that indigestible and stale vegetables cannot be eaten without peril, and that great caution and vigilance are still required. Let the rules of diet, and attention to personal habits, which have been so often enjoined, be still strictly observed; carefully avoid all crude and unripe fruits, new potatoes—and above all, do not allow any unusual relaxation of the bowels to remain neglected for a moment. Life or death may depend on these precautions.

All the recent fatal cases that we have heard of in this vicinity, were brought on or aggravated by exposure, intemperance, or gross imprudence in diet.—In all of them the disease had existed for several days in the stage of diarrhoea before medical advice was sought; and in one the patient while laboring under diarrhoea was daily eating green apples, and when remonstrated with, said she wished to die.

The town is healthy, and with care as to diet and regimen, and attention to the first appearance of a relaxed state of the bowels, we think no apprehension need to be felt, and in the opinion of the physicians the disease under the circumstances is readily controlled.

Paterson Intelligencer, July 25, 1849:

Cholera.—Several cases of cholera have occurred in this town, during the past week, nearly all of which readily yielded to prompt medical treatment. Two or three deaths have occurred during the same time, which, we learn, were caused by imprudent indulgence of the appetite. We have heard of no new cases for the last two or three days and believe our town is now as healthy as usual. By attending to the rules of diet, and the first appearance of a relaxed state of the bowels, which may easily be checked, no apprehension need be felt.

Paterson Intelligencer, August 1, 1849:

PROCLAMATION.

By the Governor of New-Jersey.

WHEREAS the President of the United States, in consideration of the prevailing pestilence, has set apart FRIDAY, the third day of August next, and recommended that it be observed throughout the United States, as a day of Fasting, Humiliation and Prayer; and whereas I believe that the people of this State recognize the obligations of a Christian nation publicly to acknowledge their dependance upon Almighty God, and humbly to bow beneath the strokes of his afflictive providence, and fervently to supplicate his mercy; I do therefore hereby cordially respond to the sentiments expressed by the Chief Magistrate of the Union, and unite with him, in recommending to all the citizens of the State, the due and proper observance of the day named; and that abstaining from their worldly pursuits, they assemble themselves in their respective places of public worship, there with humble confession of sin and thankful acknowledgment of past mercies, unitedly and fervently to implore the Almighty

Ruler of the Universe, to remove from us the scourge with which we are afflicted and speedily to restore to us the inestimable blessing of health.

Given under my hand at the city of Trenton, the twenty-sixth day of July, in the year of our Lord eighteen hundred and forty nine.

DAN'L HAINES.

Friday next, the 3d inst., is the day designated in the President's Proclamation, to be observed throughout the United States as a day of fasting, humiliation and prayer, in consideration of the prevailing epidemic. From what we have seen in the papers the day will be pretty generally observed throughout the country. There appears to be a general disposition among the people to suspend business of every kind, and many of the clergy of every religious denomination, in every part of the country, have given notice of religious services during the day, in their respective churches. We believe religious services will be performed in most or all of the churches of our town, and we presume our citizens generally will suspend their ordinary business during the day, and participate in these exercises.

Cholera.—A number of cases of cholera have occurred in this town during the past week, but the exact number we have not been able to ascertain. Several deaths have also occurred, but we believe in every instance in which the disease terminated fatally, the victim had been guilty of a violation of the rules of diet, or of intemperate use of intoxicating drinks.—We fear that most of the more violent cases which have occurred here lately, have been caused by imprudence in diet. Cucumbers, green corn, cabbage, &c., are used without stint by many of our citizens, who stubbornly persist in their use at the present time, because they had always used them heretofore without injury. People will use their own pleasure about such things, but it seems strange to us, that they cannot abstain from a little indulgence in eating and drinking when a fearful epidemic is in our midst, and when they must be aware that most of its victims have been those who have given way to their appetite in eating and drinking.

There are some very filthy places in our alleys and by-streets, and we are continually pestered with the question, Why don't the Town Committee cleanse them?

Can the Committee tell us why these places are allowed to breed contagion in our midst? We presume the officers have ample power to cleanse them; but if the law does not provide for the emergency, the demands of public health and public safety should remove all doubts as to the propriety of acting at once and with energy in the matter. A few dollars are nothing if their expenditure will keep away or allay the ravages of Cholera. It is true, we have been much favored in the matter of health, but we should not forget that cleanliness is one of the best and surest safeguards against disease. We would call the attention of the Committee to the condition of the alley leading from Boudinot-street to John-street—a locality where death has been no stranger—as a fit subject for their operations.

HYMN.

Written for the *Intelligencer*.
For Fast Day, August 3, 1849.

The voice of dread judgments
Is sounding around us,
We hear it, alas, and
The news doth astound us ;
The scourge of old Asia
Our cities are feeling
It marches all potent,
Their doom it is sealing ;
How long shall its triumphs
Bring sorrow and wailing—
The high and the low, all
Before it are quailing.

This scourge of Jehovah,
It goes where he sendeth
It moves, and it strikes in
The place he intendeth ;
An arrow which he has
Prepared in his quiver ;
His servant, it flies his
Command to deliver.
How long shall its triumphs
Bring sorrow and wailing—
The old and the young, all
Before it are quailing.

Lord, humble our nation,
And give us repentance,
May Zion lie low, and
Confess thy just sentence ;
May rulers and people
Invoke thy protection,
To save and deliver
From this dread affliction.
Then shall from our churches
The songs of hosanna,
Arise in full chorus ;
The Lord is our banner.

SENEX.

Paterson Intelligencer, August 3, 1849.

Deaths from Cholera continue to occur in this town. but we have no means of ascertaining the exact number. As far as we have heard, however, every case which has terminated fatally, was caused by great imprudence in diet, or of an excessive use of spirituous liquors, and we fear that so long as people will persist in using cucumbers, green corn,

and other unwholesome truck with which our market is overstocked, so long cases will continue to occur among us. A man by the name of Voorhis, a watchman in the Phoenix Mill, was taken with vomiting, while at his post, about three o'clock on Monday morning, and died about 4 o'clock in the afternoon. He had been eating cucumbers on the day previous, which he threw up when taken with vomiting. Several similar cases have occurred during the last week, and we believe all terminated fatally.

We have been requested to call the attention of the Town Committee to the wretched condition of the side-walk and cross-path at the corner of Congress and Prospect-streets. It has become dangerous to pass at that place, particularly at night, and we have been told that several persons have been injured by falling over the large stone laid across the gutter.

We would also call attention to the filthy condition of the vacant lots on the south side of Congress-street, between Cross and Mill-streets. They lie considerably lower than the street, are filled with water which has turned perfectly green, and which emits an effuvia highly detrimental to the health of the neighborhood, particularly at this time when a fatal epidemic is lingering among us. The owners should be compelled to fill them up.

Paterson Intelligencer, August 15, 1849 :

The Cholera still continues among us, and several fatal cases have occurred during the past week. The dysentery and diarrhoea are also very prevalent, and quite a number of persons are down with either one or the other of these diseases. The former is of a very malignant type, and several deaths have occurred from it during the last week or two.

We learn also that the dysentery is very prevalent at Little Falls, in this county, and that a number of persons have fallen victims to it within the last week.

Paterson Intelligencer, August 22, 1849 :

Deaths from Cholera continue to occur in this town, but there being no Board of Health to look to for a report of the cases and deaths, it is impossible to state the precise number. As far as we can learn, however, there is some abatement in the number of cases, and we may reasonably hope that the disease will speedily disappear from among us.

The dysentery still continues to prevail to some extent, but it appears to be less virulent, and yields more readily to medicine than when it first appeared.

We learn that several deaths from cholera occurred at Bloomingdale and neighborhood, in the upper part of this county, during the past week.

Paterson Intelligencer, August 29, 1849 :

The Cholera.—The cholera is gradually disappearing from among us, very few cases having occurred for several days past. We believe all the deaths which have occurred during the past week, from this disease, may be traced to imprudence in diet or neglect of diarrhoea, and we fear cases will continue to occur occasionally, so long as people will indulge immoderately in the unwholesome truck with which our market is daily over-

stocked, and which the more imprudent and inconsiderate are induced to buy on account of their cheapness. Unripe peaches, apples, &c., are also used in great quantities, which will account for the many cases of diarrhoea and dysentery which occur daily in our town.

We heard of a distressing instance of the ravages of the cholera in a family, in this town, some time last week. A poor woman, residing in White Alley, went to New York for the purpose of selling a lot of shoes, where she was taken with the cholera and died. The husband, hearing of the death of his wife, started for the city also, leaving two small children alone in the house. During the night, both children were taken with cholera, and died before daylight, alone, and where they were found on the next morning by some of the neighbors.

Paterson Intelligencer, September 5, 1849 :

The Cholera is gradually disappearing from among us, very few cases having occurred during the last four or five days, and most of which, we believe, readily yielded to medicine. The dysentery, however, continues to prevail to a considerable extent in this town and neighborhood, but is less fatal than it was a week or two since.

A gentleman from Paterson states that on Monday there were no less than 17 deaths from cholera in that place.—N. Y. Sun.

There has been much sickness among us during the last two months. On one day no less than thirteen funerals, with solemn, measured step, passed through Market-street, to the cities of the dead. Of these the cholera had its share of victims, and though the pestilence has been bad, far worse, we fear, than most of our people have suspected, yet not more than a quarter of the large number above stated, were cholera deaths. More than three quarters of the Sun paragraph is exaggeration, and we have no doubt that if this gentleman informant of the New-York luminary would walk to the corner of Nassau and Spruce-sts. with this short story in his hands as his certificate, Horace Greeley would have given up to him "that hat" instant.

A CASE OF CHOLERA.

As the proper treatment of cholera will never be ascertained, until men of science carefully compare the treatment of particular cases with the results of the treatment ; and as every lover of humanity ought to contribute what in him lies, to ascertain the proper mode of treating this dangerous disease, we have thought it our duty to give to the public the treatment of a case, which occurred in this town on the twentieth of August last. The treatment is given as presented in the attending physician's bill for services rendered, which is—so far as we are enabled to translate—as follows :—

APPENDIX H.

AN ACT respecting highways in the township of Paterson, in the county of Passaic.

It being represented to the legislature, by the petition of inhabitants of Paterson, that public convenience requires an alteration of the laws respecting roads, as applicable to that township, and it appearing just and proper that their request in that matter should be granted—therefore,

1. BE IT ENACTED by the Senate and General Assembly of the State of New Jersey, That the township committee of the township of Paterson, in the county of Passaic, shall be vested with and exercise, in their corporate name, all the powers, rights, privileges, and duties that the overseers of the highways in said township are now capable of exercising and performing; and shall have authority to regulate the streets and sidewalks, and to make and to enforce, by penalties, all ordinances, necessary for the purposes aforesaid; and the members thereof shall be subject to the penalties, existing against overseers for neglect of duties.

2. And be it enacted, That hereafter the inhabitants of said township shall not elect overseers of the highways in said township.

3. And be it enacted, That this act shall go into operation on the day of the next annual town meeting in the said township.

Approved January 29, 1846.

(Pamphlet Laws, 1846, p. 3.)

A supplement to "An act respecting highways in the township of Paterson, in the county of Passaic," approved January twenty-ninth, eighteen hundred and forty six.

It being represented that the powers conferred upon the township committee of the township of Paterson, by the act to which this is a supplement, are not sufficient to enable them properly to establish such regulations as public convenience and the safety of travellers require—therefore,

1. BE IT ENACTED by the Senate and General Assembly of the State of New Jersey, That the township committee of the township of Paterson may make and establish such rules, ordinances, and regulations as they, or a majority of them, shall determine to be necessary for preventing the encumbering or obstructing the streets and side-walks; for preventing or regulating the running at large of dogs and swine; for preventing or regulating immoderate riding and driving through or in any of the streets; for preventing or restraining disturbances or disorderly assemblages, at night, in any street or streets; for abating or removing any public nuisance in or upon any of the streets; for regulating the vending of meats, fish, and vegetables; for grading, gravelling, or paving any streets or side-walks, at the expense of the individual owners of the lots fronting on the same, and for such other purposes as the comfort, health, security, and convenience of the citizens and public may require, and to enforce the observance thereof, by penalties, not exceeding twenty-five dollars each, and by imprisonment, not exceeding twenty days, for a wanton repetition of the offence, after the imposition and enforcement of a fine; the expenses of paving and the fines may be recovered, with costs of suit, in an action of debt, in the corporate name of the township, before any justice of the peace within the county; the state of demand may be generally for a penalty, and the special matters may be given in evidence, and the inhabitants of the township shall be competent jurors and witnesses; and a justice of the peace, before whom judgment of imprisonment shall be given, may carry the same into effect by warrant of commitment, under his hand and seal, directed to the keeper of the jail of the county, who shall receive and keep the defendant at the expense of the township; provided however, that no ordinance shall be made and enforced which will prevent the wagons of farmers, and other vehicles from the country, with wood or the products of their farms, from stopping for the sale thereof, along the sides of the streets, under necessary and uniform regulations

2. And be it enacted, That this act shall go into operation immediately after the passage thereof.

Approved February 8, 1847.

(Pamphlet Laws, 1847, pp. 35-36.)

APPENDIX I.

AN ACT to authorize the township committee of the township of Paterson to appoint a collector of taxes for said township.

WHEREAS it is represented to the legislature that great difficulty exists in relation to the collection of taxes in the township of Paterson, in the county of Passaic, and that no adequate power exists in law to remedy the evil—therefore,

1. BE IT ENACTED by the Senate and General Assembly of the State of New Jersey, That it shall be lawful for the township committee of the township of Paterson, at any time before the twentieth day of October, in each and every year, to appoint some capable and proper person, residing in the county of Passaic, to be and to be called the collector of taxes of said township, to whom all warrants that may and shall be issued by any justice of the peace in said county, by virtue of the seventh section of "An act to provide for the assessment and collection of taxes in the township of Paterson, in the county of Passaic," passed the tenth of March, eighteen hundred and forty-two, and the seventeenth section of "An act concerning taxes," passed the tenth of June, seventeen hundred and ninety-nine, for the purpose of enforcing the payment of any taxes, or arrearages thereof, in said township, shall be delivered by every justice, to the said collector of taxes, and no other person or persons, shall serve or execute every such warrant, except as is hereinafter provided.

2. And be it enacted, That the said collector of taxes shall be entitled to and allowed the same fees for services, under and by virtue of any such warrant, as are allowed to the constable for such services by the act entitled, "An act concerning taxes," aforesaid, and the supplements thereto, and shall also be subject to all the penalties and liabilities for neglect or non-performance of duties; shall have all the powers and privileges, and shall perform all the duties, that, by the said act concerning taxes, and the supplements thereto, are named, imposed upon, and granted to any constable to whom a warrant as aforesaid shall be directed and delivered by any such justice of the peace.

3. And be it enacted, That every such collector of taxes, appointed as aforesaid, shall, before he enters upon the performance of the duties of his said office, and within seven days after he shall receive notice of his appointment by the said township committee, enter into bond to the inhabitants of the township of Paterson, in the county of Passaic, with two or more sureties, good and sufficient freeholders in said county, in such sum as the said township committee shall name, not less than the whole amount of taxes returned by the township collectors to the justice or justices, conditioned that the said collector of taxes shall and will well and faithfully discharge and perform all the duties imposed upon him by this act; which bond, when forfeited for neglect of any duty so as aforesaid imposed upon such collector of taxes, may be prosecuted for the use and benefit of said township; and all such actions and suits to be brought and prosecuted on any such bond shall and may be brought in the supreme court of this state, or in the circuit court or inferior court of common pleas of said county of Passaic; and in every action upon any such bond the

plaintiffs may assign as many breaches as they shall think fit, and the jury, upon trial of such action, shall assess damages for such of the said breaches as the plaintiffs shall prove to have been broken; and, on verdict therefor, the like judgment shall be entered as hath heretofore been usually entered in like actions; provided, that in any action or suit that may be commenced and prosecuted on any such bond, no challenge to the court shall be made or allowed by reason of the liability of any member or members thereof to assessment or taxation in said township, or county, or state; and provided further, that the inhabitants of the said county shall and may be competent jurors and witnesses therein.

4. And be it enacted, That it shall be the duty of every justice of the peace in said county, to whom any list of delinquents shall be delivered by any township collector of said township, according to the requirements of the sixth section of "An act to provide for the assessment and collection of taxes in the township of Paterson, in the county of Passaic," to give notice thereof to the township committee of said township, within two days after such list shall have been delivered to him; and if the said committee shall fail or neglect, for two days after such notice, to inform every such justice of the appointment of a collector of taxes as aforesaid by them, specifying the name and residence of such collector of taxes, then it shall and may be lawful for every such justice to make out and deliver to some constable or constables of the said county, a warrant or warrants, according to the directions and provisions of "An act concerning taxes" aforesaid; but if the said committee shall, within two days, as aforesaid, notify every such justice of such appointment of a collector of taxes, in manner as herein before provided, then every such justice shall deliver the said warrant or warrants to such collector of taxes.

5. And be it enacted, That this act shall take effect immediately.

Approved March 1, 1849.

APPENDIX J.

AN ACT respecting Dublin Spring brook, in the township of Paterson, in the county of Passaic.

WHEREAS it being represented that the Dublin Spring brook, in the town of Paterson, requires to be widened and deepened; that it overflows its banks and fills the cellars adjacent to said brook with water, and renders a part of said town unhealthy, and that there is no law to regulate the same—therefore,

1. BE IT ENACTED, by the Senate and General Assembly of the State of New Jersey, That the township committee of the township of Paterson may make and establish such rules, ordinances, and regulations, as they, or a majority of them, shall determine to be necessary to deepen, widen, and cleanse the said brook, and to remove and prevent nuisances therein, and to wall the sides thereof, if necessary, from the north side of Oliver street to the place of its discharge in the Passaic river, at the expense of the owners of lands to be benefited by such improvement; and that the expense of improving, as aforesaid, that portion of said brook running
